~Halloween Parade~ my one of a kind auction piece

Halloween Parade

Measures 18 inches high in total. All eight pieces are made from mohair except for the dragon which is made from ultrasuede and gilded and the black rabbit who is made from wool felt. These little bears and mice are busy celebrating Halloween.

There is a 3.75 inch Mummy bear and a Halloween mouse riding on the dragon. Since the dragon was `way` too serious to be seen in a halloween costume I gave him his very own spider to carry and frighten people with.

Riding on the bat is a true little `Princess` who likes pink and refused to have an orange pumpkin stick so pink it is!

Finally there is the mouse girl (who wanted to be the Princess too) and the skeleton rabbit riding on a very `fru fru` spider (she had her moments too!). They all have their very `own` pumpkin stick.

I really enjoyed making this one of a kind piece but there were a few too many prima donna`s in the set...it was very challenging.
