

Newsletter October 06

We hope you like the new website—it is not quite complete but it does show all the new currently available designs including our two new lines ~Deb~s Little Gems~ and the ~Dollshouse Collection~. The archive Information will be added over the next few months.

Deb~s Little Gems— lots of different animals

Porker

Rollo

I am excited to go back to using the velvets again—this is where I began my career. While I love mohair there will always be some designs more suited to velvet and some to Mohair, they are also very affordable retailing

between \$40- \$48. The pieces measure from 2.25 inches—3.5 inches and each show and edition size of 300 BUT I will retire them as we go and many will not reach their full edition size. I want to keep the number of pieces available at any one time to about 16—so when new ones come in,

old ones will retire. ~Rollo~ and ~Porker Pig~ were both retired at 75 pieces. Information on retirements will always be available on the website. To see all these new pieces check out the ~Debs Little Gems~.

Santa Mouse 2.5 in

New to ~Deb~s Little Gems~ this month is ~Santa Mouse~ (top right) 2.5 inches.

New Dollhouse Collection

These small pieces measure between 1.4-2 inches and are each fully jointed. They are limited to 1000 each. There may be some smaller editions added in time, particularly when it comes to holiday pieces and other

animals. To see them all check out `Dollhouse `The `10th Anniversary Tinies` set of tiny tiny jesters, (above) le 140 is sold out.

Halloween

We retired the `Halloween 06` piece, a good witch on a cat at 150 pieces.

`Pumpkin Humpty` le 100 - sold out

`Pumpkinhead and the Sawhorse` this was a 10th anniversary special, an addition to the original `Oz` collection - sold out --- love this piece!!!

Christmas

Our special Christmas set is `Nautical Santa` this will close out at 150 pieces. I do these double sets every Xmas and my theme is `Santa`s from around the world`.

More Inbetweensies

Left—`Rudolpho` 6.5 in le 100

Right -`Frosty` 8 in le 100

`MacTavish` was launched January but we had terrible trouble finding his `fur`. Thus, he is just about to ship but rather than the full size edition of 75 pieces he will

be nearer 50.

`Smarty Pants` is new for the fall and measures 9 in and while his edition shows 75 he will be nearer 65 because again we had a `fur` problem—we couldn't find enough.

`Saucy Mouse` measures 7in and is limited to 100 but there are two different mohairs, one is slightly longer and fluffier than the fur in this picture.

We sometimes have what I call `idiosyncracies` where we have to change designs . Another example is the original ~Oz miniature collection where we had to change Dorothy's red slippers to silver. Only a small number of silver were ever made.
